Forty-fifth session
SECOND COMMITTEE

ORGANIZATION OF WORK OF THE SECOND COMMITTEE

Note by the Secretariat

Allocation of items

1. The agenda items allocated by the General Assembly to the Second Committee are listed in the letter dated 21 September 1990 from the President of the Assembly to the Chairman of the Second Committee (A/C.2/45/1). Background information on those items may be found in the annotations to the agenda (A/45/100).

List of documents

2. A list of documents submitted under the various agenda items allocated to the Second Committee has been issued in an addendum to the present document.

Programme of work

3. The suggested programme of work has been prepared bearing in mind paragraph (b) of rule 99 of the rules of procedure of the General Assembly, the organizational arrangements agreed upon by the Assembly at the outset of its current session (A/45/250), and the availability of documentation. The number of meetings allocated for the general discussion of the agenda items allocated to the Second Committee was based on past experience. The suggested programme of work set out in the annex below is based on the consultations which the Chairman of the Committee has conducted on the matter.

Length of statements

4. In recent years, the Second Committee decided to limit statements on all agenda items, with the exception of the general debate, to 10 minutes and to limit statements during the general debate to 15 minutes. The Committee may wish to continue this practice.

Conference facilities for formal and informal meetings

5. Taking into account the availability of conference services for the Main Committees of the General Assembly, as in previous years, an average of seven formal meetings a week have been scheduled for the Second Committee. Unless otherwise specified, meetings will be held punctually at 10 a.m. and 3 p.m. In this connection, the General Assembly decided to remind delegations that punctuality is of the utmost importance in the interest of ensuring an effective and orderly organization of work and achieving economies for the United Nations. As decided by the General Assembly, the requirement of the presence of at least one quarter of the members of the Committee to declare a meeting open and permit the debate to proceed has been waived. Informal consultations (with interpretation facilities) on draft proposals before the Committee will be held as and when required, bearing in mind that the Committee should endeavour to complete its work by Tuesday, 4 December. Attention is drawn in particular to paragraph 13 (a) of General Assembly decision 34/401, which states that a mandatory deadline, not later than 1 December, should be established for the submission to the Fifth Committee of all draft resolutions with financial implications.

REPORT OF THE ECONOMIC AND SOCIAL COUNCIL

Entrepreneurship as a means of attracting non-debt-creating flows of capital

Note by the Secretariat

1. By its decision 1990/265 of 26 July 1990, the Economic and Social Council recommended to the General Assembly the adoption of a draft resolution annexed thereto, entitled "Entrepreneurship as a means of attracting non-debt-creating flows of capital". The text of the draft resolution is reproduced below.

The Economic and Social Council,

Recalling General Assembly resolution 41/182 of 8 December 1986 on indigenous entrepreneurs in economic development and taking note of the report of the Secretary-General on national entrepreneurs in economic development (A/45/292-E/1990/82),

Recognizing that each country is responsible for its own economic policies for development and that the promotion of growth and development depends on appropriate domestic economic policies and a supportive international economic environment,

Acknowledging the need for effective and responsible governance for setting and implementing each country's national goals in the political, social and economic spheres,

Aware that as the world changes economically, societies must respond positively,

Appreciating that political pluralism and market-oriented economies together provide the optimal flexibility in responding to change in order to provide just and equal opportunities to all peoples to enable them to develop their full potential,

Noting the importance and relevance of private enterprise in the growth and development of countries and the need to provide the necessary incentives and environment to enable the spirit of entrepreneurship and competition to prosper,

Aware that higher domestic savings and inflows of capital, including new investment and the return of flight capital, depend upon free enterprise, a key component of which is entrepreneurship,

Realizing that capital secured by entrepreneurs from investors adds to the non-debt-creating flows of capital within the economy,

1. Encourages the development of entrepreneurship in societies seeking to develop or recuperate their economic vitality through free enterprise and market opportunities;

2. Agrees that entrepreneurship, in the context of a competitive market economy and supportive governmental policies, attracts non-debt-creating flows of private capital within and between countries and enhances the internationalization of financial markets and a more integrated world economy;

3. Urges States to enhance their legal and regulatory frameworks and to make more efficient their capital and credit markets to provide for sound private sector development and its positive benefits for employment opportunities and national wealth;

4. Looks forward to the meeting of the Joint Ministerial Committee of the Boards of Governors of the World Bank and the International Monetary Fund on the Transfer of Real Resources to Developing Countries, to be held in September 1990, in particular the deliberations on the issue of giving higher priority to private sector development, including the mobilization of domestic and foreign private capital, and institutionalizing this priority across the entire range of Bank operations;

5. Requests the Secretary-General to incorporate in future issues of the World Economic Survey a chapter on the role of entrepreneurship as a key element of growth and development;

6. Requests the Secretary-General to study measures at the national and international levels to promote the contribution of entrepreneurship to societies seeking to develop or regain their economic vitality through free enterprise and market opportunities, drawing upon the work already in progress in the United Nations system and bearing in mind the need to avoid duplication of effort and cost, and to report thereon to the General Assembly at its forty-sixth session through the Economic and Social Council.

REPORT OF THE ECONOMIC AND SOCIAL COUNCIL

Implementation of section II of the annex to General Assembly resolution 32/197 on the restructuring of the economic and social sectors of the United Nations system

Note by the Secretariat

1. By its decision 43/433 of 20 December 1988, the General Assembly on the recommendation of the Second Committee, decided to defer until its forty-fifth session consideration of the draft resolution entitled "Implementation of section II of the annex to General Assembly resolution 32/197 on the restructuring of the United Nations system". The text of the draft resolution is reproduced below.

The General Assembly,

Recalling its resolutions 3201 (S-VI) and 3202 (S-VI) of 1 May 1974, containing the Declaration and the Programme of Action on the Establishment of a New International Economic Order, and 3281 (XXIX) of 12 December 1974, containing the Charter of Economic Rights and Duties of States,

Recalling its resolution 3362 (S-VII) of 16 September 1975, by which it, inter alia, established the Ad Hoc Committee on the Restructuring of the Economic and Social Sectors of the United Nations System for the purpose of preparing detailed action proposals with a view to initiating the process of restructuring the United Nations system so as to make it more fully capable of dealing with problems of international economic co-operation and development in a comprehensive and effective manner and to make it more responsive to the requirements of the provisions of the Declaration and the Programme of Action on the Establishment of a New International Economic Order, as well as those of the Charter of Economic Rights and Duties of States,

Recalling also its resolution 32/197 of 20 December 1977, by which it, inter alia, endorsed the conclusions and recommendations of the Ad Hoc Committee,

Recalling further its resolution 33/202 of 29 January 1979, in which it, inter alia, requested certain actions and measures within the framework of the implementation of the conclusions and recommendations of the Ad Hoc Committee,

Reaffirming that the process of restructuring the economic and social sectors of the United Nations system is an integral part of the efforts required to ensure the equitable, full and effective participation of the developing countries in the formulation and application of all decisions within the United Nations system in the field of development and international economic co-operation,

Taking note of Economic and Social Council decision 1979/57 of 2 August 1979, concerning the implementation of section II of the annex to General Assembly resolution 32/197,

Recalling, in particular, paragraph 13 of the annex to its resolution 32/197,

Taking into account the provisions of paragraph 7 of its resolution 34/212 of 19 December 1979,

Bearing in mind its decision 34/453 of 19 December 1979,

1. Notes with regret paragraph (a) of Economic and Social Council decision 1979/57, concerning the implementation of section II of the annex to General Assembly resolution 32/197;

2. Recognizes the imperative need to enable the General Assembly to focus its attention on the major global issues relating to development and international economic co-operation, and to deal with other issues on a less frequent basis;

3. Recognizes also that expansion of the membership of the Economic and Social Council to include all States Members of the United Nations as full members would make the Council a more effective organ for carrying out the functions assigned to it in the Charter of the United Nations and for discharging the responsibilities laid down in section II of the annex to General Assembly resolution 32/197, as well as for assisting the Assembly as may be requested by it;

4. Decides therefore to adopt, in accordance with Article 108 of the Charter, the following amendment to the Charter and to submit it for ratification by the States Members of the United Nations:

"Article 61

"1. The Economic and Social Council shall consist of all the States Members of the United Nations;

"2. Each member of the Economic and Social Council shall have one representative";

5. Urges all Member States to ratify the above amendment in accordance with their respective constitutional processes as soon as possible and to deposit their instruments of ratification with the Secretary-General;

6. Decides to delete, as from the date of the entry into force of the above amendment, rules 145 and 146 of the rules of procedure of the General Assembly;

7. Recommends that the Economic and Social Council should decide at its organizational session for 1981 that, as from 1981, its sessional committees should be open to the participation of all States as full members;

8. Recommends further that, until the amendment to the Charter set out in paragraph 4 above enters into force, the consideration of all substantive questions should be entrusted by the Economic and Social Council to its sessional committees;

9. Decides to discontinue the Intergovernmental Committee on Science and Technology for Development and the Preparatory Committee for the United Nations Conference on New and Renewable Sources of Energy;

10. Decides also that the General Assembly will be directly assisted by the Council in respect of the review and appraisal of the International Development Strategy for the Third United Nations Development Decade, 1/ and accordingly requests the Council to make adequate time provisions to that end;

REPORT OF THE ECONOMIC AND SOCIAL COUNCIL

International Drinking Water Supply and Sanitation Decade

Bolivia: draft resolution:*

The General Assembly,

Recalling its resolutions 32/158 of 19 December 1977 adopting the Report of the United Nations Water Conference and approving the Mar del Plata Action Plan 1/ on drinking water supply and sanitation, and other agreements reached at the Conference, 35/18 of 10 November 1980 proclaiming the period 1981-1990 as the International Drinking Water and Sanitation Decade, and 40/171 of 17 December 1985 containing a mid-term review of the Decade,

Bearing in mind that the Second United Nations Conference on the Least Developed Countries (3-14 September 1990) and the World Summit for Children (29-30 September 1990), among others, reaffirmed the goals and objectives of providing safe water and sanitation for all,

Deeply concerned that, notwithstanding the achievements attained during the International Drinking Water Supply and Sanitation Decade, the current rate of progress remains slow, owing to economic problems facing developing countries, and would leave a very significant number of poor people in urban and rural areas without suitable services in water and sanitation by the year 2000,
